

Printing in a Periphery: a Quantitative Study of Finnish Knowledge Production, 1640-1828

Mikko Tolonen, Jani Marjanen, Hege Roivainen, Leo Lahti

2016-07-06

From particular data to global perspective?

Idea: study early modern knowledge production, all of it (1470-1830)

How? By combining library catalogue data (Fennica, Kungliga, ESTC, CERL)

Important: to clean up the data (90% of the work) and to take into account how particular data collections (Finnish National Bibliography, English Short-Title Catalogue etc.) have been formed.

How to fail: take worldcat or similar combination of datasets and analyse it as a whole without cleaning it first.

[Intro 2/3]

Data (1470-1828):

- ▶ Fennica (Finnish National Bibliography): 20328 documents
- ▶ Kungliga (National Library of Sweden): 73165 documents

Method

- ▶ Scalable code in library catalogue data ecosystem (github)
- ▶ xxx TODO: WHAT DOES LEO WANT TO SAY HERE?
- ▶ Benefit no. 1: once the work has been done, the data is available for everyone to use and to enrich it. The ecosystem is constructed with even unforeseen changes in mind.

Context

- ▶ Finnish knowledge production 1640-1828 can only be understood in the Swedish context.
- ▶ Academy of Turku as part of the Swedish University system is the centre of Finnish knowledge production.

Findings

Enlightenment in Finland after “the rock bottom” of 1700-1721

1. Changes in University curriculum reflected in published theses
2. Religious publishing in Finnish language
3. Economy and social science published in Swedish language

→ Deep roots of the diversity of “Finnishness” reflected in knowledge production, 1640-1828.

TODO Kartta!!!

jossa näkyy Turku osana Ruotsin valtakuntaa

ts. eri kaupungit ja niiden nimikemäärät kartalla. Kartat voisi tehdä, jos mahdollista, vuosille 1650, 1710, 1767 ja 1800 niin näkyy muutos. Tai sitten video jossa näkyy kehitys. Pohjois-Eurooppa karttapohjana.

Toteutuksesta riippuen voidaan miettiä, jos tämä kartta-slide korvaisi tuon alla tulevan “Comparing publishing activity in Swedish University town”.

Publishers

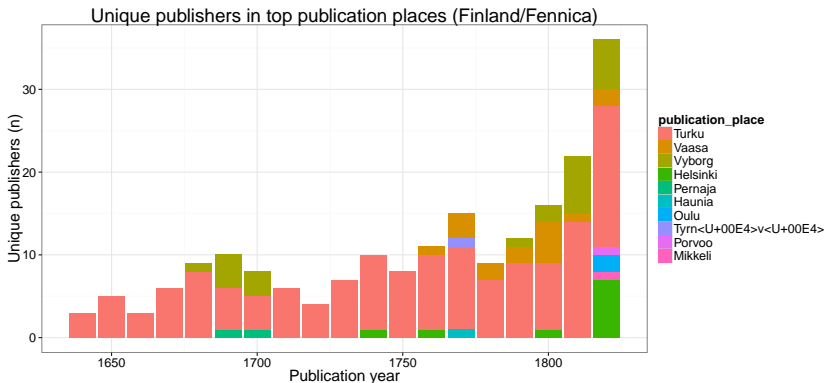

[Publishers 1/6]

TODO Turku in Sweden!!!

Janin ajatus: Kaaviot Fennicasta ja Kungligasta, jossa lasketaan eri kaupunkien nimikemäärien, paperinkulutuksen ja kustantajien suhteellinen osuus vuoteen 1828. Eli samanlainen kaavio kuin on kielistä "Book printing in Finland" –osiossa. Laaditaan kaaviot Tukholmasta, Uppsalasta, Lundista, Greifswaldista ja Turusta. Voiko myös tehdä erillisen kaavion, jossa Tukholma on poistettu, josta näkee näiden kilpailevien kakkoskaupunkien tilanteen.

Languages

TODO: “Other” kielikategorian selvittäminen seuraavissa kuvissa. Onko siellä joku tietty kieli joka näkyy hyvin selvästi mukana analyysissä? Nousee isoksi kategoriaksi. Nyt oon merkannut, että Kreikan kieli (Greek) mukaan moneen kohtaan. Jos kyseessä joku muu kuin Kreikka niin sitten se. Jos taas paljon kombinaatioita pieniä kieliä, niin antaa siinä tapauksessa olla.

Effects of the Enlightenment in Finland

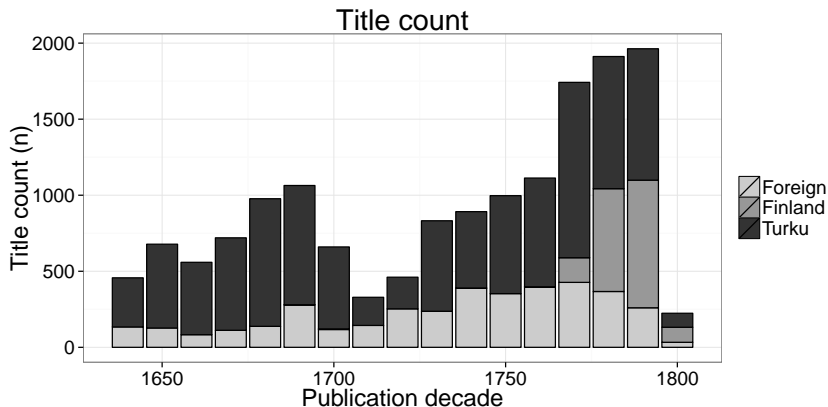

- ▶ decline of metaphysics, rise of social and economic theory
- ▶ the Enlightenment literature read in Finland mainly printed elsewhere

TODO: KUVA PITÄIS RAJATA 1640-1828, EN ONNISTUNUT

Finland in the Swedish context

- Dramatic events regarding the diversity of “Finnishness” take place in the early nineteenth century — but the analysis of Finnish knowledge production 1828-2016 is for another day.

Duplicate publications

TODO: General analysis (any simple picture) of duplicates between Kungliga and Fennica based on Hege's deduplication code.
